Skills - **Microsoft Dynamics D365 ,SQl ,X++**

PROJECTS

#ShopVista - An E-commerce Web Application
Developed a feature-rich E-commerce web application that provides a seamless shopping experience for users while ensuring data security and robust functionality. The project encompasses the following key features and technical details

Front-end Development: Proficient in React 18 with Tailwind CSS for UI design. Experienced in state management using Redux Toolkit and Async Thunk. Skilled in optimizing navigation with React Router v6.
Back-end Development: Proficient in creating RESTful APIs using Express. Experienced in connecting to MongoDB databases via Mongoose v7 for efficient data management.
Authentication: Experienced in implementing secure user authentication using Passport JS. Skilled in adding API authentication with Passport JWT for enhanced security.
Database Management: Utilized MongoDB Atlas for data storage, ensuring scalability and data redundancy.
Email Communication: Skilled in using Nodemailer with Gmail SMTP integration for efficient email notifications.
Payment Processing: Proficient in enabling secure payments through Stripe, utilizing Payment Intent-based custom flows for reliable payment processing.
